

### Grayne provides the ultimate replacement for $Natural\ Cedar$

### Western Red Cedar is native to the Pacific Northwest.

- Often seen in dark, red-tone colors.
- Grayne Red Cedar offers a 7.5" exposure.

Grayne's Engineered Composite Shingle offers the charm of natural cedar. The shingle's graining patterns create natural depth and shadows for a striking on-house appearance. Grayne's sharp, crisp edges and dual offset installation provide the most authentic look possible, from up close and from the curb.

#### Eastern White Cedar is native to Northeastern U.S. and Canada.

- Often seen in grey-tones and coastal colors.
- Grayne White Cedar offers a 5" exposure.

# 7.5" Red Cedar Color Palette

What makes natural cedar shingles so striking is the color variance found in the woodgrain. That's why Grayne 7.5" Red Cedar offers six warm and welcoming cedar colors that have light and dark points like cedar found in nature. Ranging from stained looks to aged cedar, it's easy to find the perfect match for any project.

Don't see a color you are looking for? Customize with your favorite color by using Grayne's paintable shingle.

Actual colors may vary from printed representation.

# 5" White Cedar Color Palette

Grayne's 5" White Cedar color palette incorporates the subtle color gradations and variations in the grain of plain-sawn shingles, giving the striking appearance of true cedar from every angle.

Instantly get the look of aged cedar without any of the maintenance that accompanies real wood.

Have a custom color in mind? Grayne is also available in a paintable shingle to make your vision come to life.

Actual colors may vary from printed representation.

### PAINT READY for your project

### Create your own Custom Color

Don't see a color you are looking for? Customize with your favorite color by using Grayne's paintable shingle.

Grayne Paintable shingle allows for superior paint adhesion with its innovative proprietary surface treatment. Made from a rigid PVC composite which is impervious to moisture, it is a great choice for any homeowner's custom color choice.

For more information please visit Grayne.com.

\*Note: Sherwin WIlliams Color (6435), no color variations when painted.

### PERFORMANCE

#### Authentic Keyways

Natural cedar is beautiful. With Grayne Engineered Composite Shingle, you get the same beauty with none of the maintenance. Climate conditions can affect natural cedar to show signs of cupping and curling due to inadequate joint/keyway spacing and expansion/contraction. With Grayne shingle there is none of that because Grayne was designed to keep its shape over time. Grayne's deep keyways create pronounced shadows that ensure a lasting true cedar look on your home that is easy to clean and maintain. It will look as spectacular as the day it was installed.

## Finish the look with the right Accessories

Grayne PVC TRIM

Moisture-resistant cellular PVC provides maximum water management when installed correctly. An integrated nailing flange forms a 3/4" j-channel for faster, easier installation of Grayne Engineered Composite Shingles. You can choose to stick with their brilliant white paint color or paint them to match any surrounding elements.
